Edwards Cardioband TNT Symposium
Cardioband: Clinical Reality for Mitral and Tricuspid Valve Repair

A. Vahanian
Potential conflicts of interest

Speaker's name: Alec Vahanian

- **Consultancy**
  - Abbott Vascular
  - Edwards LifeSciences
  - Mitraltech
Session Objectives

• Understand how to perform mitral repair in patients with functional mitral regurgitation

• Understand early results of a clinical program to perform tricuspid repair in patients with tricuspid regurgitation

• Learn more about the experience with the Cardioband procedure
Agenda

16:30   Session Objective - A. Vahanian
16:35   Clinical experience with Edwards Cardioband system for mitral regurgitation - F. Maisano
16:41   Echo guidance: anatomy and physiology - S. Von Bardeleben
16:47   How quickly can you master Edwards Cardioband system? - A. Latib
16:53   Discussion and audience interaction
17:08   Edwards Cardioband system for tricuspid valve – Recorded case from Heart Center Bonn - Bonn, Germany - G. Nickenig
17:38   Tricuspid repair with Edwards Cardioband system, early results of the Tri-Repair study - K.H. Kuck
17:44   Discussion and audience interaction
17:54   Session evaluation and key learnings - K.H. Kuck
