Heart Team 2030
Heart Team 2030: Managing quality?

- Measure
- Measure
- Measure

JL Zamorano
What to measure:

• Patient outcomes

• Activity

• Time-efficiency

• Cost-efficiency
Complex VHD patients

**CORONARY ARTERY DISEASE**

**MULTIVALVE DISEASE**

**ASCENDING AORTA PATHOLOGY**

**WITH PRIOR CHEST RADIATION**

**REQUIRING RE-OPERATION**

**GUCH**

**Level II- Primary Valve Center**

**Level I- Comprehensive Valve Center**

S. Windecker
## Disease Specific Heart Teams

S. Windecker
The Heart Team 2.0 Where should we be in 2030?

- Specialized Centers and Ultra-specialized Physicians
- Sophisticated multi-modality imaging
- AI-augmented patient management
- Volume concentration and very early intervention
- Focused on long term outcomes not just technical success
- Academic and financial unification

David H. Adams
Heart Team 2030

• 2019: Heart Team → Treatment option for a patient as a one-time event

• Future: Heart Team → Precision medicine
  Disease as a continuum
  Complex pathologies, comorbidities
  Acute and long-term outcomes
  Specialized centers and physicians
